

Since he is playing with Peter and his friends since the early 80s he has seen the big stages as well as the smallest clubs. Everyday studio work never gets him bored.

But working with the best and the worst made him create the slogan:

"The difference between theory and practice is much bigger in practice than in theory."

He loves the 1.FC Nuernberg, his cats, Pizza and spicy hot food and last but not least – his motorbikes.
